Bible records are excellent sources for family information especially for events that occurred before vital statistics were recorded. WCGS has copies of many bible records available in our Resource Library. Some of these records are copies of pages from the original family bibles, while others are typed or handwritten transcriptions submitted by relatives. Sometimes the typed transcriptions come from DAR applications or typed bible records from website submissions. Below is a list of Bible Records that have been submitted to WCGS as of 2013 and another list updated in 2015. The Warren County Historical Society also has additional Bible Records.

If you find your ancestor listed and would like a copy of the bible page, please contact our Research Committee at research.wcgsoh@gmail.com. If you have family bible records not in our collection and would like to donate a copy, we accept both digital and paper copies.

These lists are searchable by using <CTRL+F> if using a Microsoft Windows-based operating system.
